ÈCOLLABO8

Created to make a change in 2019, ECOLLABO8 is an innovative plastic recycling company based in Bali, Indonesia.

We collaborate with brands to create campaigns, run waste management programs, or mass-produce recycled products.

Our different technologies allow us to design and manufacture any sort of product, from pocket mirrors, shirt buttons, sunglasses, coat hangers, furnitures, interior decor and more.

Our objective is to impact our surroundings by collaborating with established companies. We have worked with many different sectors of activities and created long term impactful collaborations and campaigns.

The world is changing, sustainability is a must in order to stay competitive, a collaboration with our company will allow you to have an edge on the competition, it will emphasize the sustainability aspect of your enterprise and help you get closer to your customers.

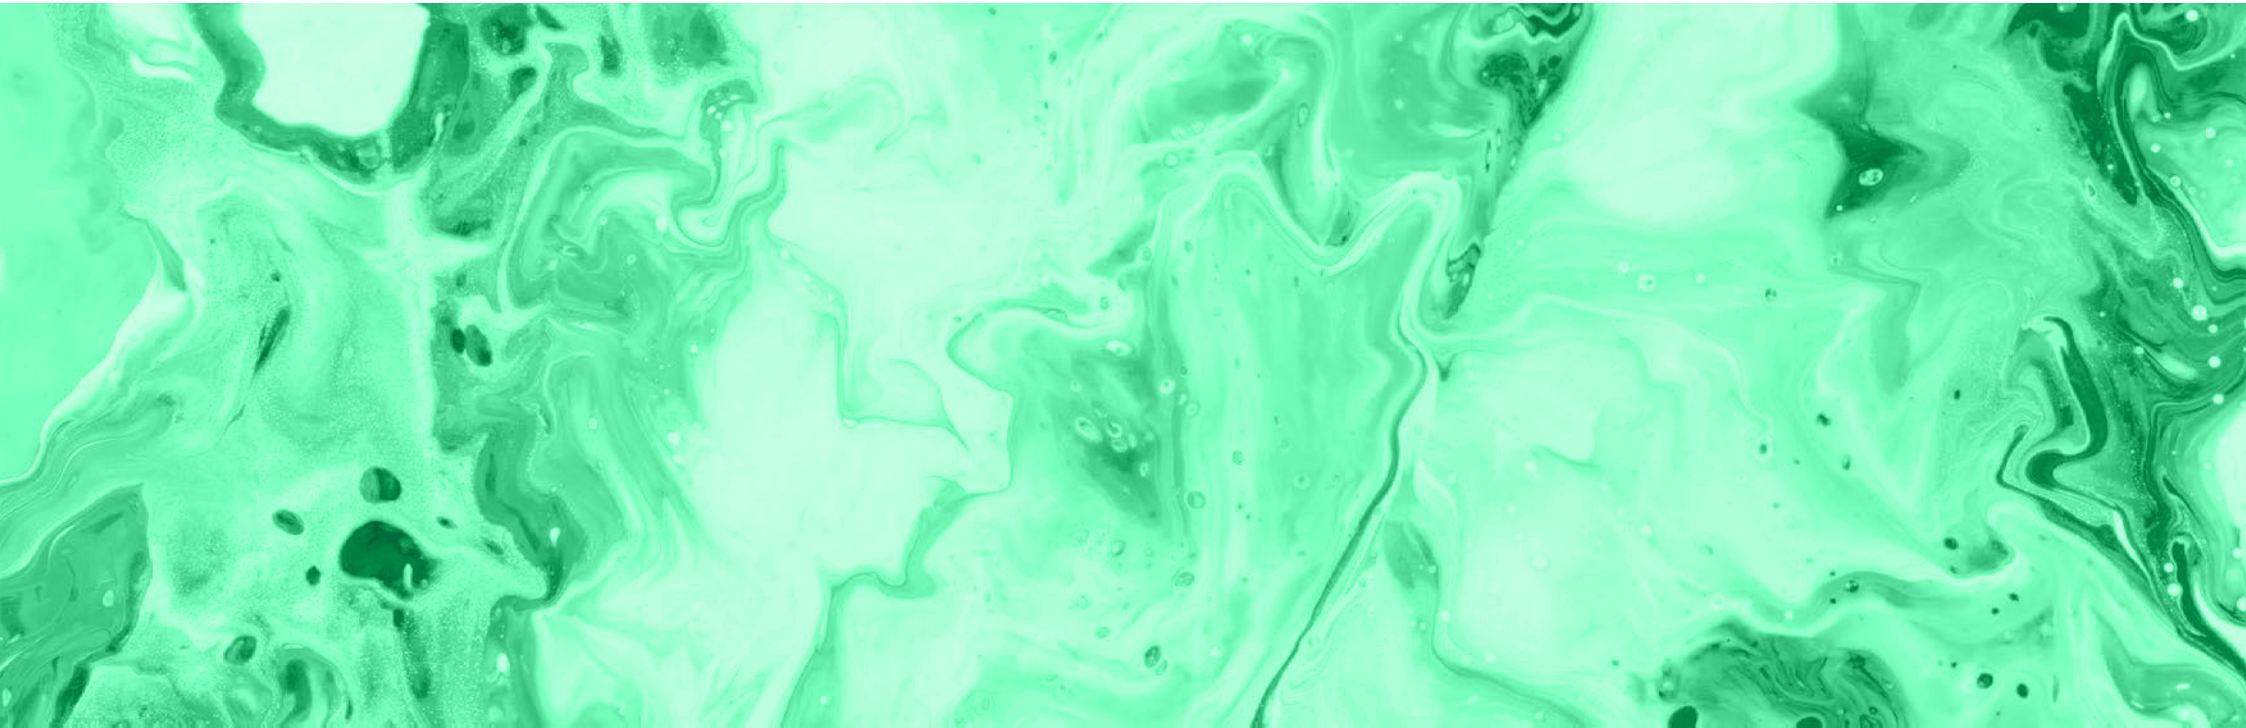

Sedex⁷ | Member

As a company that develops and distributes recycled plastic products around the world, we are proud to join initiatives that underpin our commitment to responsible business practices and reinforce our culture of sustainability.

We use SEDEX/SMETA tools and audits with a view to continuous improvement, ensuring that our activities are based on ethical principles with respect for human and labour rights, as well as the environment, health and safety at work.

As Sedex members, we aim to contribute to a more sustainable supply chain.

COLLABORATIONS

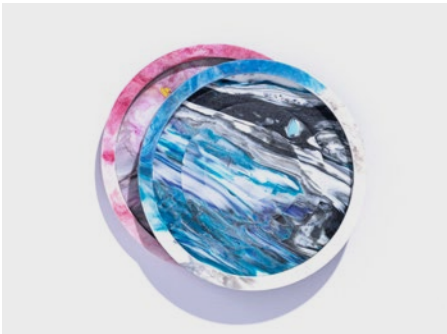

Our collaborations with established brands and companies have allowed us to create a meaningful social and environmental impacts as well as brighten companies image and build closeness with their customers.

With ECOLLABO8 capacity to process over 15.000 kg of trash per months and 4 different technologies, our designers crew is able to make any projects come to life.

THE BODY SHOP

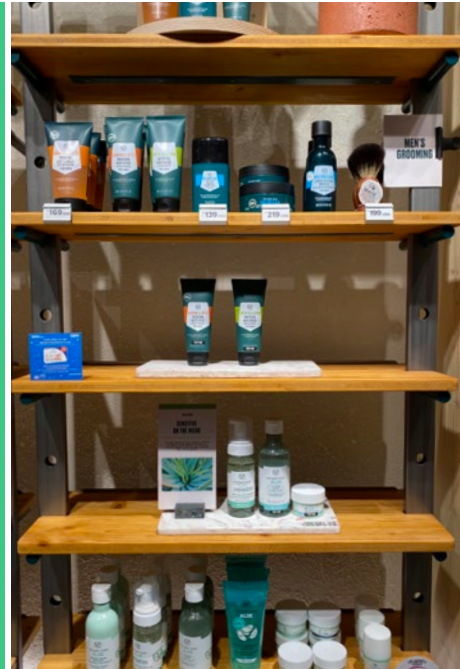

this collaboration with The Body Shop, where customer bring back their empty containers for us to create new products a circular economy from customer to customer that allows us to produce on average 10.000 units per months.
(300kg per months recycled)

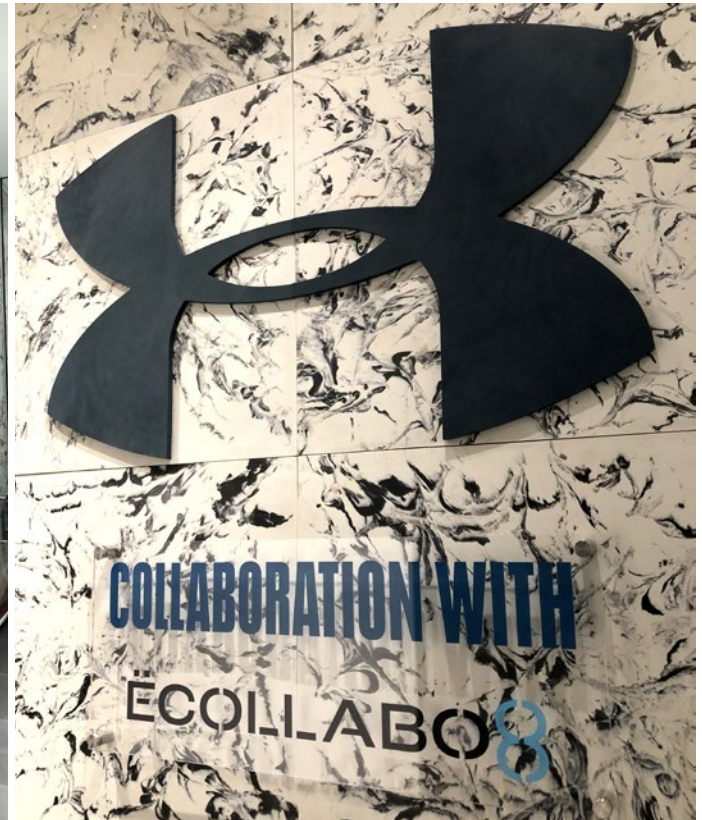

THE BODY SHOP

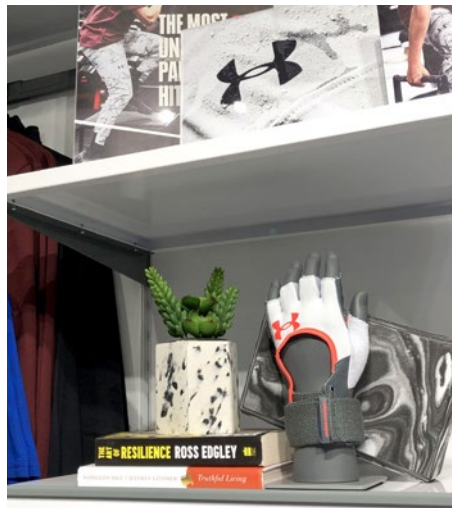

Our collaboration with The Body Shop doesn't stop at merchandises, we are producing mural art installations, furnitures and products stands for their stores. Increasing the store visibility and reputation on social media and recycling over 300kg per stores.

UNDER ARMOUR

Collaborating with Under Armour, the leading global sportswear company. We collaborate for the store interior of the stores of Under Armour Indonesia with Wall Art, Mural, Pots, Dumbbell, Gym plates made from plastic waste to enhance the sustainability side of the brand. A total of 500kg of plastic trash is recycled for this project.

“EVERYONE HOLDS THE POWER TO MAKE A CHANGE”

A collaboration with Disney and Marvel for the movie premiere “Thor: Love and Thunder”. A combination of our different technologies, planks, panels, and hand craved silver, cactus leather, traditional engraving on reclaimed wood to create this weapon exposed at The Marvel exhibition in Jakarta.

P&G

In collaboration with Procter & Gamble, the world's largest consumer goods company, we have orchestrated a collaborative effort resulting in the transformation of 179 kilograms of P&G's post-consumer waste into exquisite works of functional art, including a wall mural, stools, tables, and popsockets for Procter & Gamble's Indonesia sustainability week.

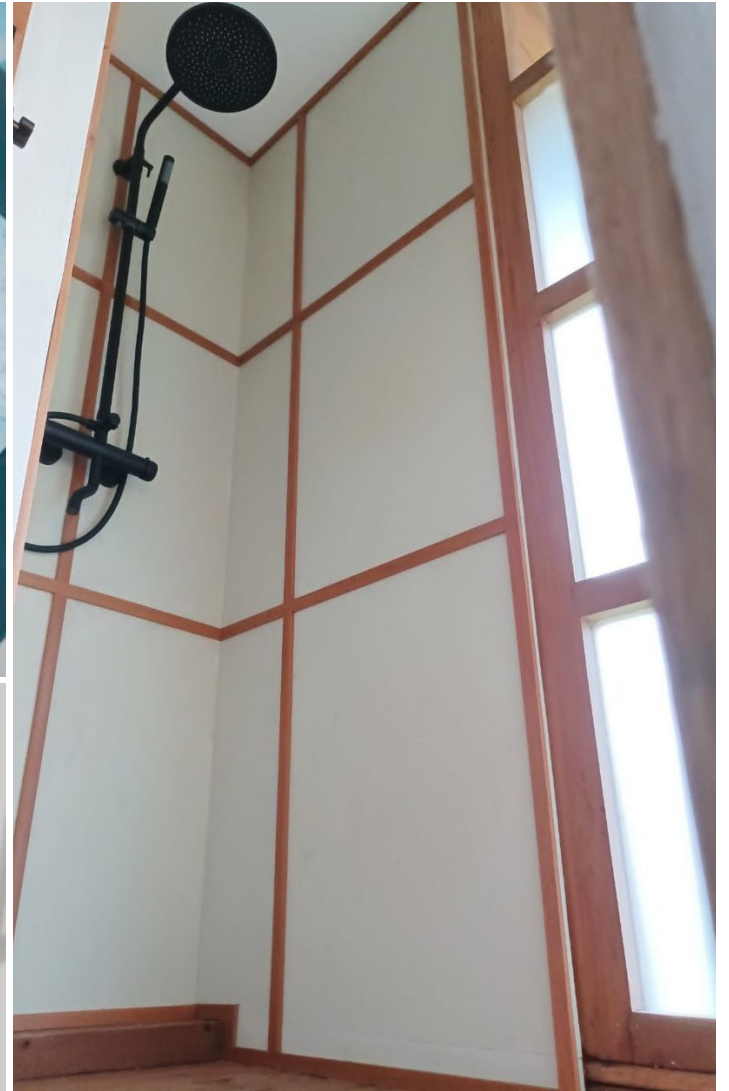

We worked with Sampoerna on AWAL KECIL UNTUK BUKTI NYATA campaign and manufactured billboards made of 200 kilograms of plastic waste for A Mild. The billboards are showcased in Surabaya & Yogyakarta.

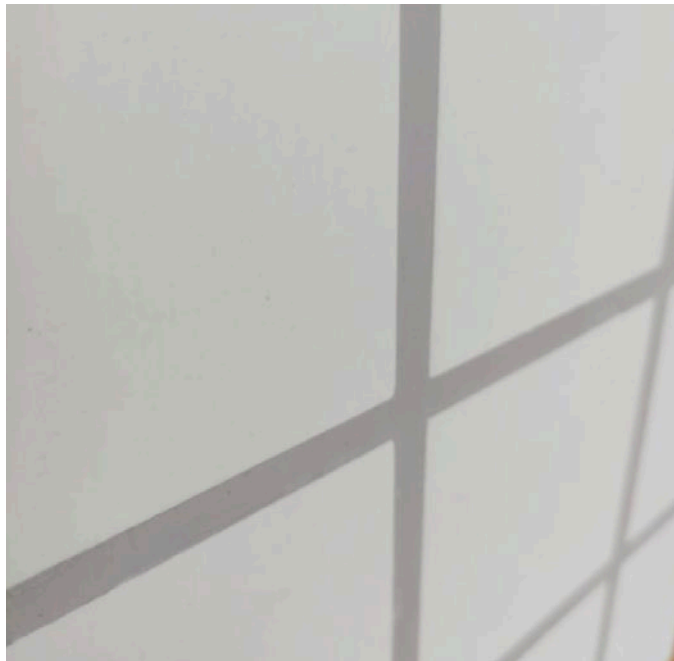

Our new innovative collaboration, rubber recycling. In this collaboration with Havaianas, we are turning old sandals into new merchandise like coasters, playground mats, and mouse pads. Another impactful circular economy collaboration from customer to customer.

An architecture company that focuses on designing and constructing prefab architecture with minimal environmental impact. With Stilt Studios, we manufacture recycled plastic sheets to replace wood in their construction.

With almost no limits in the design, we are able to manufacture solid colors, marble or sparcled patterns.

MELIÃ

BALI
INDONESIA

Stepping forward on a journey towards sustainability, the luxurious 5-star hotel, Melia, joins hands with ECOLLABO8. Together, we craft exquisite outdoor and indoor furniture pieces from recycled plastic for children and beach area, as well as bowls, plates, and amenity dispensers.

We have recycled over 2.000 kg of plastic waste to make these indoor and outdoor furniture pieces for The BK Village, a beautiful boutique hotel surrounded by lush tropical greenery in Bali.

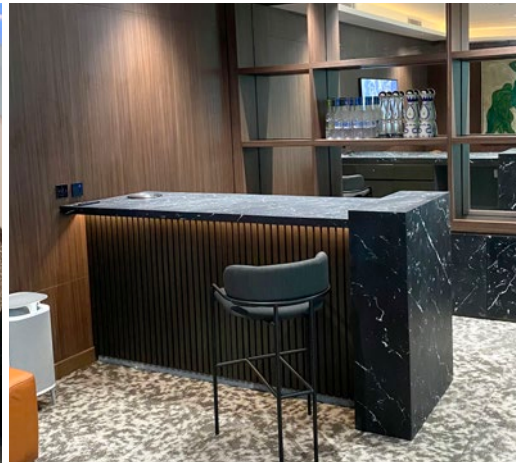

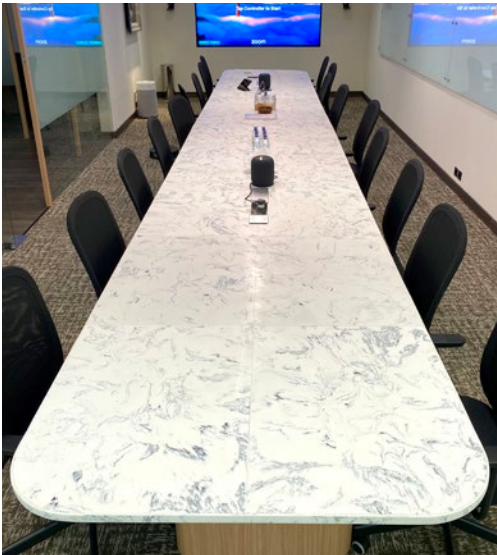

In collaboration with The Avocado Factory, we have sourced and upcycled plastic waste materials to create a truly unique and environmentally friendly space. From bill holders, sofas, tables to the fence, planters and tree bench that surrounds our restaurant, even the tiles adorning the walls, we have incorporated upcycled plastic into various elements of the venue. Notably, we have repurposed a staggering 1600kg of plastic waste to construct the remarkable pergola structure for the building.

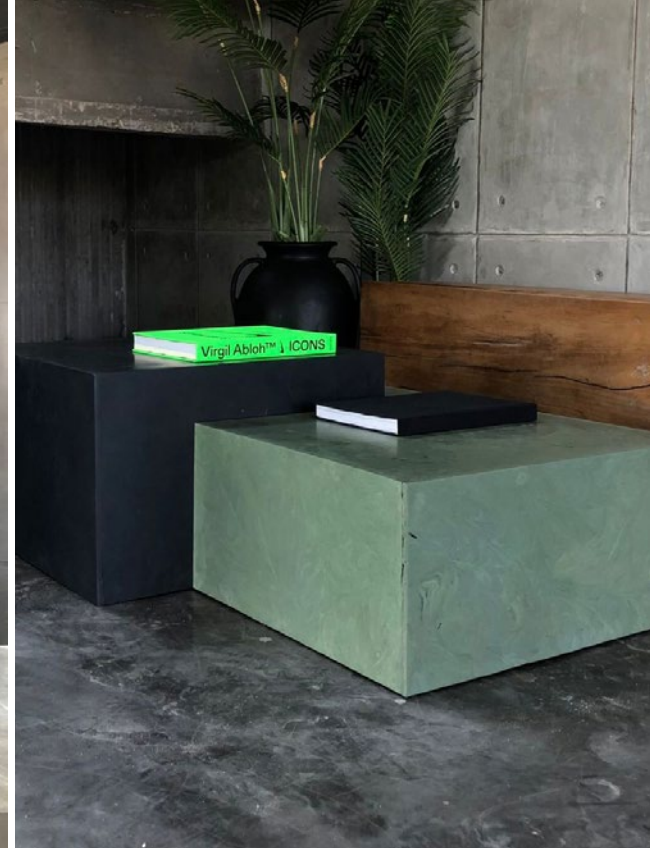

THE AVOCADO FACTORY

o

Creating an elegant, comfortable workspace while also contributing to sustainable living is reflected in our latest work for ADCORP office located in Ashta District 8 Jakarta. We have processed approximately 1,483 kg of plastic waste to create indoor office furniture sets including reception tables, meeting tables, executive tables, staff tables, bar tables, and other luxurious and elegant office supporting furniture.

ADCORP

WRONG GYM

Partnering with Wrong Gym Bali, an exclusive wellness boutique, ECOLLABO8 brings forth a unique collaboration focusing on interior elements. Together, we have transformed over 2000kg of plastic waste into exquisite gym lockers, countertops, and pedestals, redefining sustainability within the gymnasium space.

CSR EVENTS

ECOLLABO8 is also here to help companies with their corporate social responsibility (CSR) events. Our team works closely with each organization to understand their specific goals and objectives, and we use our expertise to create and execute events that align with those goals. Whether it's increasing brand awareness, fostering employee engagement, or making a positive impact in the community, we have the experience and resources to make it happen.

PuraBocho

Art installations, furniture, and walls. This collaboration allows us to express our artistic talents and showcases a little more about all the possibilities of recycled plastic.

Queen Scrunchie is a brand based in Holland, together, we designed and manufacture these recycled plastic molded combs that are available to purchase in Europe.

INDOOR LIVING DESIGN

OUTDOOR LIVING DESIGN

Our technology in the production of our furniture allows us to process over 500 kilograms of trash every day. We turn the plastic waste into wood like planks to manufacture high-end, UV-proof, indestructible outdoor furniture.

Available in any color, without pigments or paint added in the process.

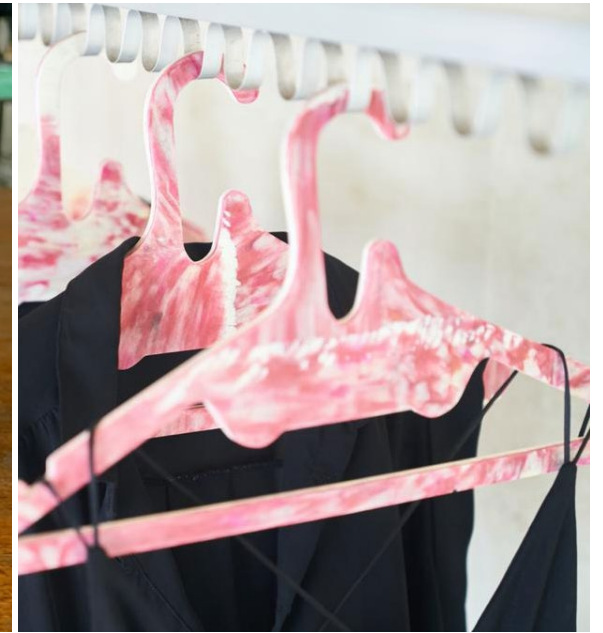

MOLDED AMENITIES PRODUCTS

Using recycled plastic small molded products is a great way to strengthen your relationship with your customers and enhance your hotel's image. These products are of extremely high quality and can be manufactured in a wide variety of colors and shapes. They are also customizable.

Additionally, using these products can have a significant environmental impact. For example, using 500 plates, 500 bowls, and 500 trays can prevent half a ton of plastic waste from ending up in landfills. When producing products that come into contact with food, only post-consumer food containers are used.

The plastic is thoroughly cleaned through a hot wash and then molded at 180 degrees Celsius to ensure that no bacteria or contaminants remain.

ANYTHING IS POSSIBLE.
LET'S LEAD THE CHANGE TOGETHER

From shirt buttons, keychains, to billboard or outdoor furnitures, we thrive to find solution to innovate and find ways to impact our surroundings.
